

Richard S. Hartley, Ph.D., P.E. is a principal engineer in the Emergency, Safety, and Health Division for B&W Pantex in Amarillo, Texas.

Dr. Hartley is currently the primary lead for developing High Reliability Organization (HRO) training for his organization's senior management and for developing an improved Causal Factors Analysis process for organizationally rich, yet non-consequential events for the General Manager.

Dr. Hartley received his Ph.D. in Nuclear Engineering from the University of Texas at Austin, his M.S. in Nuclear Weapons Effects from the Air Force Institute of Technology, and his B.S. in Physics from Texas A&M University. He holds Professional Engineering Licenses in Environmental Engineering in Ohio and Texas.
